

2ND KISII NATIONAL POLYTECHNIC INNOVATION CONTEST

Call For Innovations

KNP invites all TVET trainees within Kenya and East African community (EAC) to submit their innovations to the 2nd KNP innovation contest. Each innovation should have a maximum of two trainees. The innovation competition targets all innovative solutions in the following thematic areas: Climate action towards sustainable development, food security, industry 4.0 and cross cutting themes on sustainable development.

NOTE: Innovators are advised to file patents for their innovations.

Commitment

The innovators (Trainees & their supervisors) should commit themselves to cater for all costs associated with developing their innovations, maintenance, upkeep and travel associated with the exhibition. Candidates have additional responsibility of ensuring that all information provided to the innovation award team is true and accurate, as well as providing it when it is required for evaluation of their Innovations.
